About This Game

Prepare to experience the original man-on-the-run thriller in a completely new way. This is a digital adaptation of John Buchan's incredible book (inspiration to Ian Fleming's James Bond!). Be transported back to 1914 London, where Richard Hannay finds himself framed for a murder he didn't commit. Now he must escape the Capital and stay alive long enough to solve the riddle of The Thirty-Nine Steps.

There are secrets to be discovered, locations to be explored and - above all - an incredible tale to be told in this ground-breaking interactive novel.

Key Features:

- A new form of entertainment, merging the worlds of literature, gaming and film into one visually stunning storyline.
- Faithfully constructed using the original - and best-selling - John Buchan text, first published in 1915.
- Hundreds of hand-painted digital environments, and authentic materials from 1910s Britain.
- 8 different storytelling mechanics, 25 collectible items and 16 awards to be unlocked.
- An original soundtrack by Si Begg and theatrical voice performances, including Ian Hanmore, Greg Hemphill and Benny Young

-
- Created in Unity4, with a playtime of 5-8 hours.

Title: The 39 Steps
Genre: Adventure, Casual, Indie

"The only thing to distrust is the normal."

Apparently, this game is based on James Buchanan's 1915 novel of the same name, which also influenced the James Bond series. Go figure. I've never read the novel, but maybe I'll give it a whirl someday. Regardless, I enjoy a good piece of interactive fiction from time to time, and I feel like I got what I was looking for with The 39 Steps.

Being more of a visual novel, you can expect to do quite a bit of reading; however, that's made enjoyable by the eye-catching graphics/art style, excellent voice acting, and lovely soundtrack. From walking around foggy London streets to hiking through the Scottish countryside, the music and art combine to really enhance the overall mood. Aside from the reading, most of the game's action sequences revolve around relatively simple scene searches and mouse movements. The latter can feel a bit silly, especially when you're just going through the motions to open a door or something, but it's what you'd expect from a visual novel so I wasn't particularly annoyed. Each scene is also relatively short, which offers the player a break from the "action" (reading).

Definitely recommended for fans of this genre: those who appreciate visual novels, graphic adaptations of novels, etc. I enjoyed The 39 Steps and will probably play it again someday, much like picking up an enjoyable book for another read.. Not a game. cant recommend as I would rather read a book or watch the film. Why pay for this. Really cant see why this has positive reviews on a game site.
